

Website Starter Package!

We understand that taking on the job of webmaster and being responsible for your website setup can sometimes be very intimidating. For that reason we are happy to announce the expansion of our support services by offering what we call a Website Starter Package.

This new service is strictly optional but will provide the church, district office, missionary or evangelist the opportunity to work with one of our staff one-on-one to assist them in the initial layout of their website so that it looks professional, is easy to navigate, and includes the necessary content to communicate to their respective community and/or audience.

Once your website structure is in place and complete, you the end user, would then be responsible for maintaining and updating the website from that point on with training assistance from our dedicated support team.

Here is what is included in this package:

Website Starter Package:

Cost: \$ 300.00
